## CAREER OBJECTIVE

Intend to build a career with leading corporate of hi-tech environment with commitment and dedication, which will help me to explore myself fully and realize my potential.

## ACADEMIC QUALIFICATIONS

**Master Of Computer Application (2023 - 2025)**          **8.6**

K.L.N. College Of Engineering          **(CGPA)**

**B.Sc  Computer Science (2020 - 2023)**          **8.1**

Sourashtra College,  Madurai          **(CGPA)**

## PROJECTS

**Online Marketplace for Local Artisans**

➢ Developed a full-stack web application that local artisans use to display,  personalize, and sell handmade products.

➢ Built features that include product listing, product customization, secure Stripe payment integration, customer reviews, live chat between buyer and seller, and full order management.

➢ Designed user authentication, role-based access (artisan, customer, admin), and responsive design for cross device experience.

➢ Tech Stack: React.js, Node.js, Express.js, MongoDB, Stripe, Tailwind CSS, Socket. io.

**Hotel Management System**

➢ I Developed a Hotel Management project using HTML, CSS, JavaScript and MySQL. It allows Staff to manage room bookings, customer details and Services.

➢ Integrated MySQL database for efficient data storage and retrieval of booking and customer information.

➢ Tech Stack: HTML, Tailwind CSS, Javascript, PHP, MySQL, XAMPP Server.

## AREA OF INTERESTS

➤ Web Development
➤ Back-End Development

## INTERNSHIP

**Web Development Intern — [Digizura Technologies private limited]**

(Jan 2025 – Present)

## Roles & Responsibilities

➢ Currently developing the frontend for the new **IT Audit** module in OMP to streamline SOD/User conflict review workflows.

➢ Designing and implementing five core screens: **Upload & Initiate**, **Review Subordinate**, **Confirm Removal**, **Approve Retainment**, and **Summary**, based on UI/UX specs and workflow diagrams.

➢ Building responsive UI components such as dropdowns, tables, checkboxes, radio buttons, and file upload interfaces tailored for different user roles (Admin, IT Lead, IT Head, Reporting Manager).

➢ Coordinating closely with backend developers to align UI behavior with API responses and workflow triggers.

➢ Ensuring accessibility, usability, and clean layout using modern UI practices and framework standards.

## TECHNICAL SKILLS

**Programming Languages**
➤ Java, JavaScript

**Web Development**
➤ HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js

**Database Management**
➤ MySQL

**Automation Testing**
➤ Selenium WebDriver (Basic)

## LANGUAGE FLUENCIES

- Tamil           :       Read / Write / Speak
- English       :       Read / Write / Speak
- Hindi           :       Read / Write / Speak
- Sourashtra    :       Speak (Mother Tongue)

## CERTIFICATIONS

### Java Certification

Details: Successfully completed a comprehensive Java programming course, covering core concepts, OOPS principles and Practical Applications.

### Full Stack Web Development (In Progress)

Details: Currently enhancing skills in Full stack web development, focusing on front-end and back- end technologies including HTML, CSS, Javascript, Node.js with Express.js and Databases.

### Software Testing (Basic)

Completed Software testing Course at Besant Technologies, covering key concepts such as Manual testing techniques, Automation testing techniques and understanding the software development lifecycle (SDLC) and software testing lifecycle (STLC).
